

## NearVision CK Instructions for Surgery:

### What should I expect on procedure day?

Because NearVision CK is fast and simple, procedure day is easy. Here's what to expect:

- You may eat a light snack before the procedure.
- Patient check-in
  - Please be on time so the schedule for all patients can be maintained.
  - Be sure you bring or have already returned your signed Informed Consent Form
  - Please be sure your payment arrangements have been finalized prior to your CK procedure
- Although the procedure is quick, please plan for a 1-1½ hour stay at our Center for all pre/post-op details.
- Scheduling of 24-hour post-op appointment (if not already done)
- Post-op discussion and care instructions

### What should I do before the procedure?

Please plan on the following *before* undergoing NearVision CK:

- Do not wear soft contact lenses for at least 1 week before the procedure
- Do not wear hard contact lenses for at least 3 weeks before the procedure
- Please do not wear make-up, hairspray, perfume, cologne, aftershave, or jewelry on the day of your procedure.
- Please dress comfortable and warm as the procedure room can be chilly.
- Arrange for transportation from our Center on procedure day.
  - You should not drive after an eye procedure.
  - A responsible adult must be available to remain with you during the procedure and to drive you home following your procedure. Please ask us if you should require assistance.
