

Custom Cataract Surgery Options

Basic Cataract Surgery*

Your treatment may include:

- Basic Lens Implant (IOL)
- No Astigmatism Correction
- Traditional Blade Surgery

Will require glasses at one or more levels: distance (driving/TV); intermediate (computer); or near (reading/cell phone)

Prior LASIK Patients - \$405 Per Eye*

Your treatment may include:

- Advanced testing with ORA
- Customized surgical planning

Real time measurements during surgery allowing confirmation of refractive targets.

Standard Package - \$1,770 Per Eye*

Your treatment may include:

- Monofocal Lens Implant (IOL)
- Astigmatism Correcting Laser
- Advanced testing with ORA

Decreased need for glasses at one specified distance of your choosing (near, far or intermediate).

Toric Package - \$2,995 Per Eye*

Your treatment may include:

- Monofocal Toric Lens Implant (IOL)
- Astigmatism Correcting Laser
- Advanced testing with ORA

Decreased need for glasses at one specified distance of your choosing (near, far or intermediate).

Multifocal Package - \$3,700 Per Eye*

Your treatment may include:

- Multifocal Implant (IOL)
- Extended Vision Implant (IOL)
- Astigmatism Correcting Laser
- Advanced testing with ORA

Premium IOLs provide a reduced dependency on glasses or contact lenses and clearer uncorrected vision at all distances.

Light Adjustable Lens - \$4,600 Per Eye*

Your treatment may include:

- Light Adjustable Lens Implant (IOL)
- Astigmatism Correcting Laser
- Personalized and Adjustable AFTER Surgery

LAL IOLs reduce the need for glasses with improved near, intermediate and/or distance vision plus fine tuning after surgery.

*Effective 8/1/25. All fees are in addition to what your medical insurance will be billed and do not include copays, deductibles and/or out-of-pocket costs for non-covered services, if applicable.
